Prosecution in Bailey Murder Case Claims Woman Fired Shot and Will Prove it by Testimony of Maid---Mother of Victim Takes Stand and Breaks Down When Murdered Woman's Clothing is Shown.

By Associated Press.

Minneapolis, N. Y., October 20.—After several physicians have established the cause of the death of Mrs. Louise D. Bailey, who was shot and killed in the office of Dr. Edwin Carman, at Freeport, on June 30 last, Celia Coleman, the negro maid in the Carman household, is expected to take the stand today. Questions put to the talesmen yesterday by District Attorney Smith indicated that about the testimony of the maid he will build his case against Mrs. Carman.

The record time in which the jury was selected yesterday led District Attorney Smith to express the opinion that the trial would be short and that a verdict might be expected this week. It was reported that night sessions might be held to further shorten the trial.

Mrs. Carman bore up well under the strain of the first day of her trial. Whether she will be a witness in her own defense has not been determined, it was said today.

In opening for the prosecution, Lewis J. Smith, the district attorney, sketched, in some detail, Mrs. Bailey's actions on the day of the murder, the arrangement of the Carman house in general and the physician's office particularly. "We shall show," said the district attorney, "that the shot which killed Mrs. Bailey was fired by this defendant. We shall show that she passed through the kitchen, out through the side yard a moment before the shooting and that she returned through the kitchen immediately after it. We shall show further that the motive was jealousy and suspicion of her husband. Also we will show why and how she secured a telephone instrument, or mechanical eavesdropper, so that she could spy upon her husband, or whom she was intensely jealous." The district attorney also told how the defendant tore out the instrument the morning after the murder and hid it in the garret.

"We will show something about George M. Levy, this defendant's counsel," Mr. Smith continued. "We will show how she called this lawyer in the day after the murder and consulted him, and how he immediately questioned the colored girl, Celia Coleman about what she had seen. We will show that before the defendant had even been suspected she began to prepare for her defense. After we show all this, gentlemen, we shall expect you to bring in a verdict of murder in the first degree."

Mrs. Jennie Duryee, mother of the victim, was called as the first witness. Mr. Duryee, a motherly looking woman of 70 years, burst into tears as soon as she took the stand. She said, between sobs, that the last time she saw her daughter alive was at 2:20 o'clock on the afternoon of June 30.

"What is this," asked Mr. Smith, standing the witness a dark cloth object.

"That's my daughter's dress," said Mrs. Duryee swallowing hard. Madeline Bailey, the dead woman's daughter, was so overwhelmed by the sight of her mother's dress that she cried aloud. The dress was blue and accordion plaited. There was a dark stain on the back of it.

## ALLIES PREVENT SKIRTING MOVE

Fighting Along 360 Mile Battle Front Favors Allies, and Belgians Stand Firm and Repulse Attacks---Russians Drive Germans Back. Allies Storming Lille---Turkish Fleet and Russian Fleet Clash in Black Sea --- German Fleet Becoming Active.

By Associated Press.

London, October 20.—That the allies are frustrating the attempt of the reinforced extreme right wing of the German army to skirt the English channel ports with the supposed object of finding a new route to Paris is indicated by the French official statement given out this afternoon, which asserts that the Belgian army is maintaining its position on the river Yser. Further actions, the statement adds, are being fought between the allies and the Germans in the region of Ypres, Belgium. From Ypres, the allied left wing extends to the English channel, where it is being supported by British naval forces.

Along the remainder of the 360 miles battle front, the stretching from the North Sea to Switzerland, where the defender and invader have been deeply entrenched for 37 days, the only activity noted is that in the region of the Meuse river, where heavy fighting goes on incessantly, principally in the vicinity of Camdes-Romains, French batteries at St. Mihiel, south of Verdun, are reported to have destroyed an entire battery of German artillery which has been particularly active in sweeping the French position.

There is a dearth of news from German sources. A huge conflict is in progress along the Vistula river in Russian-Poland. Dispatches from

Petrograd declare that after fierce fighting to the west of Warsaw the Germans have been driven back toward their main position on a line from Skiernewice, near Lodz, to Sandomir, on the Galician border. Russian non-official reports say that the efforts of the Austrians to cross the river, San have been repulsed.

Advices from Bucharest, Roumania by way of Berlin, reiterate earlier reports that a Russo-Turkish naval engagement has been fought in the Black Sea.

London, October 20.—The plunging German attacks on the allied line near the Belgian coast between Nienport and Dixmude, similar tactics by the allies in France between Arras and Roye, where progress is claimed, a continued allied assault on Lille, still held by the Germans, and stubborn fighting in the vicinity of St. Mihiel, where for days the allies have been trying to drive the Germans from their southernmost lodgment, were the acute points today in the battle area of France and Belgium.

The communications showed how the allies, during the days of the censorship, were throwing their forces westward to meet the inevitable German advance which followed the taking of Ostend. The fighting is now centering only a few miles southwest of that city and the Belgian army is again in the thick of the fight, being credited with bending back the German line as far as Roulers, Belgium.

## TAFT SAYS AMERICA ONLY NEUTRAL NATION

By Associated Press.

Washington, October 20.—With an address of welcome by President Wilson, with Former President Taft in the chair and the entire Supreme court sitting as guests of honor, the American Bar Association today began its annual session here. President Wilson pleaded for the "humanizing of the law" in this time of international crisis. His reference to himself, as a lawyer who had "reformed", brought forth tumultuous applause. He said the world was now "stirred to its depths" but that the best course for a nation to pursue was the disinterested part.

les, and he recommended legislation to that end.

In his address, delivered as president of the American Bar Association Mr. Taft also said that the Progressive party was departing from "the preposterous nostrum" of the recall of judicial decisions because it apparently had become a burden to the party.

In speaking of the European war, Mr. Taft said that President Wilson should have the warmest approval and sincerest co-operation in his efforts to maintain the strict neutrality of this country.

"We are the principal nation," he continued, "and I might say almost the only nation, of the Christian world not so related to the struggle that both sides may really regard us as disinterested friends. It is our highest duty, and the President makes plain his appreciation of this, not to sacrifice and destroy this great leverage for successful mediation, when the opportunity arises, by ill-advised and premature judgments upon the merits. We must hold our tongues to be useful to mankind."

# WARSHIPS SHELL GERMAN TROOPS

British Squadron Aids Belgians In Checking Advance.

COMPEL ENEMY TO RETREAT

Long Range Guns Holding Germans Back From the Seacoast and Forcing the Kaiser's Men to Give Battle on Ground Chosen by General Joffre. Operations at Other Points on the Battle Front.

Paris, Oct. 20.—British warships off the coast of Belgium shelled the German line near Nieuport and aided the Belgians in driving the Germans northward from Roulers.

The Kaiser's plan to seize the French seacoast has met with a temporary check, and the guns of British cruisers supporting the Belgian army and the French marines have compelled the Germans to retreat from eight to ten miles.

The official news that a British squadron now composes the extreme left wing of the allied force and has already made itself felt is a totally new development of the war. The long range guns of the cruisers are holding the Germans back from the seacoast, nullifying the occupation of

Ostend and forcing the Germans to give battle on ground chosen by General Joffre.

The commander-in-chief reports that the Belgian army distinguished itself in the fighting, moving northward from the river Ypres, despite cannonading by the heavy guns of the Germans, capturing Roulers, and standing on a greatly advanced battle line.

The situation still is so much in the dark that it is impossible to judge of the exact trend of events. The English and French papers gather encouragement from the reports published from their side. From the German point of view, it is possible the Germans have improved their position and with the forces which besieged Antwerp and reinforcements from Germany are attempting along the coast another sweeping movement like that which carried them so far into France.

The announcement that the Germans have taken siege guns to the neighborhood of Belfort may mean that they plan to attempt an advance on both ends of what during the past month has become virtually a long fortified line.

German official reports say that the exodus from Ostend is being repeated in the flight of the inhabitants from Dunkirk and Boulogne. While confirmation of this assertion has not been received here, it is wholly possible that the proximity of the Germans has created a panic at these ports. The French claim progress at St. Mihiel.

## CUT TO PIECES

Rome, Oct. 20.—A German vanguard was ambushed and cut to pieces in a battle east of the river Vistula. A dispatch from Warsaw states that the Russians, employing a ruse which has been successful, often withdrew their infantry from the Vistula after concealing batteries of field and machine guns.

The Germans, assuming that the Russians were actually in flight, bridged the Vistula with pontoons and threw a large force upon the east bank. Suddenly the Russian artillery opened fire at close range. The machine guns did fearful execution, sweeping the pontoons and literally annihilating the column which was crossing. As the accuracy of the Russian artillery developed the pontoons collapsed, and hundreds of Germans who had escaped death by machine gun fire were thrown helplessly into the Vistula. The Russian infantry returned to the river and completed the victory.

## TEXAS HENRY STILL FUSSING

Washington, Oct. 20.—A situation developed in the house that may delay the passage of the war revenue bill. It was brought about by Representative Henry of Texas, who would force congress to pass legislation for the protection of the southern cotton planters.

Leader Underwood called up the revenue bill immediately on its receipt from the senate and moved that the house disagree and ask for a conference on the senate amendments. This was the legislative short cut to early action, it being the hope of Mr. Underwood to put the bill through by Wednesday night. Mr. Henry objected to the reference of the bill to conference. He moved that it be sent to the committee on ways and means, of which Mr. Underwood is chairman. Mr. Underwood acquiesced and the bill was referred to the committee. The ways and means committee will report the bill with a recommendation that the house disagree on the senate amendments and ask for a conference.

## The Street Fakir

The street fakir seems to be doing a land-office business in Washington C. H. this season and taking out a lot of Fayette county dollars from legitimate trade.

Nobody seems to know just why and nobody seems to be making much inquiry.

Mighty few Saturdays fail to offer the now familiar sight of a crowd gathered round a patent medicine man, a long-haired vender who gladly throws in a solid tin watch with a bottle of rain water and soap suds, labeled a "sure cure" for every known ailment of man or beast.

Do people really enjoy being buncoed? Is it the gift of the spellbinder which exercises a hypnotic influence and steadily draws the change from the pocket; or is it that the attention is caught, one victim succumbs, and the contagion sweeps through the crowd?

Probably not one out of ten would have purchased the fakir's wares upon sober second thought, but the fluency of the spokesman, the spur of the onlooking mob and the "other fellow" buying, proved too much.

The people have been tricked and tricked again, and yet the next fakir pulls the wool over their eyes just the same. A fellow posing as an optician fleeces the town, and after he departs, with a nice sum gathered from unthinking victims, is proved to have been a blacksmith, tired of horseshoeing and experimenting on "tricks in all trade!"

A quack doctor rolls in with a wonderful "cure all" that acts on either "liver" or "lights" and people grab for it like it was the elixir of life itself, and several months later realize that the rejuvenating process hasn't set in.

A fakir, pure and simple, buys up all the 10c tin watches in the 10c stores, and people grab for them at a dollar apiece!

Afterwards the buyer wonders how he was ever molly-hoed into such an easy victim, but by that time the fakir has gone his way rejoicing and is doing the same thing over in another town.

Of course all street fakirs are not in the real bunco class, but it stands to reason that the legitimate merchant or physician who lives out his life and has his interests in the community, would be far more dependable, as well as able to offer far better buying inducements than the transient man of the street wagon or booth.

A number of Fayette countians have been up against two genuine bunco games recently, and it is to be hoped that the tricksters will be successfully cornered, and given a sharp lesson.

Any number of people subscribed for "The Poultry Herald", paid down their money and were given receipts from what was apparently a genuine receipt book of the company. There was no way in which they could detect that the subscription was false or that it was purely a bunco game.

The man who was smart enough to take chickens instead of money, knowing that the farmer's wife with a big yard full of chickens wouldn't miss them much, certainly got away with a nice little wad. To be sure he left some wall pictures, but his big hit was made in contracting to return and take photographs and enlarge one of each, within two weeks. He had "hit the trail" at a good safe distance long before the two weeks were up!

If it were possible to find out how much good old Fayette county money is taken out from the channels of our own trade and turned over to the irresponsible street fakir or peddler who spends little, if any of it in our town, the amount would be staggering.

People do not stop to think that in patronizing this class they are encouraging much that is pure fake and decidedly detrimental to the business interests of their vicinity.

## European Disarmament Would Immediately Result In Tremendous Prosperity Throughout World

By LEWIS B. FRANKLIN, Banker

THE release for investment of the two billion dollars which Europe annually devotes to military expenditures would give an IMPETUS TO THE DEVELOPMENT OF THE WORLD SUCH AS WOULD BE DIFFICULT TO IMAGINE.

SUCH A SUM, ADDED TO THE PRESENT AMOUNT AVAILABLE ANNUALLY FOR INVESTMENT, WOULD MEAN AN ABUNDANCE OF CAPITAL FOR INDUSTRIAL DEVELOPMENT, BOTH HERE AND ABROAD. LOWER INTEREST RATES AND PROBABLY LOWER COST OF LIVING. ADD TO THIS THE TRANSFER OF SOME FOUR MILLION FIVE HUNDRED THOUSAND MEN, WHICH MAKE UP THE STANDING ARMIES OF EUROPE ON A PEACE FOOTING, FROM A LIFE OF ECONOMIC WASTE TO PRODUCTIVE PURSUITS AND IT IS NOT HARD TO BELIEVE THAT EUROPE WOULD REQUIRE VERY FEW YEARS TO RECOVER FROM THE RAVAGES OF WAR AND ENTER UPON A LONG PERIOD OF PROSPERITY FROM WHICH WE WOULD BE ONE OF THE GREATEST BENEFICIARIES.

Under such conditions, capital would accumulate with surprising rapidity, and EUROPE WOULD SOON BE A HEAVY BUYER OF OUR SECURITIES, and we would witness in this country an era of expansion and prosperity such as we have never before experienced.

## Poetry For Today

### THE MISSUS.

Who is it clears life's paths for me?  
The Missus.  
Who's blind to faults that others see?  
The Missus.

Who always greets me at the door  
When each day's bit of work is o'er?  
Who laughs at jests she's heard before?  
The Missus.

Who puts the buttons in my shirts?  
The Missus;  
Who smiles at disappointment's hurts?  
The Missus.

Who when the children wake at night  
Gets up to see that they're all right  
And leaves me snugly sleeping tight?  
The Missus.

Who fills the house with mirth and song?  
The Missus.  
Who bravely smiles when things go wrong?  
The Missus.

Who knows the very worst of me  
And yet some good contrives to see?  
Who labors most unselfishly?  
The Missus.

Who makes the home a gracious spot?  
The Missus;  
Who never whimpers at her lot?  
The Missus.

Who fills with sunshine every day,  
Drives all the clouds of care away?  
Who gets but very meager pay?  
The Missus.

## THE NEXT OLYMPIC GAMES.

They May, Through the War's Influence, Be Held In This Country.

The possible effect of the gigantic conflict in Europe on international sporting events for some years to come offers no more interesting speculation than the future of the Olympic games.

Even though three emperors, as many kings and one president should cease before the snow flies to play millions of men like so many pawns, no treaty of peace will be strong enough to heal racial rancor at once.

Berlin may yet be in a position to adhere to her program of being the scene of the 1916 games, but how about British, French, Russian and Belgian athletes caring to meet German and Austrian competitors there? In the same sense if to a somewhat less degree the objection would apply to the Stockholm of the neutral Swedes, which seems to be willing again to hold the games provided the other nations are agreeable.

Notwithstanding the geographical disadvantage to the majority of the United States east of the Mississippi would be a better alternative than Stockholm.—London Sport.

## WHAT DYSPEPTICS SHOULD EAT

### A Physician's Advice.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia as directed above, and see if I'm not right." adv

## America's Greatest Coffee

GOLDEN SUN COFFEE is now recognized as America's greatest coffee, being sold in practically every state in the union. This wonderful popularity has been built solely upon merit and the fact that it DOES differ from ordinary coffees.

This difference is due to the manner of preparation. In the steel-cutting process all waste matter is removed, leaving only the oil-retaining particles, the real life of the coffee bean.

Packed in air-tight cans Golden Sun Coffee is always fresh and snappy. Your grocer will supply you.

## ATTACK REPULSED

Paris, Oct. 20.—The government's official communique says: "German attacks between Nieuport and Dixmude have been repulsed by the Belgian army, which was aided most effectively by a British squadron. Between Arras and Roye we have made slight progress at several points. Our troops have advanced as far as the barbed wire defenses of the enemy. In the neighborhood of St. Mihiel we have gained ground on the right bank of the Meuse."

## MEN FORCED TO DELIVER AT POINT OF THUG'S GUN

Two Milledgeville Men Are Victims of Daring Hold-up Man Who Coolly Accosts Them While They Are on Their Way Homeward at Late Hour—Entire Countryside Aroused Over the Affair.

"Throw up yer hands!"

This is the stern command which two Milledgeville residents, Walter Miller and McKinley Worth, suddenly heard while they were walking down the C. H. & D. railroad toward their home in the outskirts of Milledgeville about 8:30 Monday night.

And they did as requested, for a business looking gun had been thrust in their faces and a pair of ugly eyes peered at them from over the top of a handkerchief which concealed the lower part of the hold-up man's face.

The two men, who are employed on the C. H. & D. railroad, carried a lantern, and were taken completely by surprise. They poked their hands heavenward and the robber went

through their pockets.

For once Miller thanked his lucky stars that he was "broke", and the hold-up man got nothing but the trouble of searching him. However Worth proved a little better picking, and his pockets yielded \$1.50, which was transferred to the capacious pockets of the man behind the gun.

After relieving the pair of their cash, the hold-up one commanded them to proceed and not to spread the alarm.

Within a short time the men were back in the village and the whole town was astir, with the result that searching parties hurried out to get the fellow, but failed to locate him.

Police of this and adjoining towns were notified, but failed to find a man answering the description.

So far as the men could ascertain the fellow was 5 feet 7 inches in height, stockily built; wore a black felt hat, striped trousers, was in his shirt sleeves with one sleeve rolled up, and had a coffee sack tied about his waist.

feature of interest the coming Thanksgiving Carnival.

The Carnival will be held the evenings of the 17th and 18th of November and the afternoon of the 18th.

The women have entered into plans for it with unprecedented enthusiasm. A Thanksgiving carnival offers tremendous opportunity for unique pleasure as well as profit, and if the public responds half way to the stirring spirit now rife among the women who are its promoters, a handsome sum will be netted for the Boys' Y. M. C. A. work.

The soliciting committee is planning an active campaign throughout the city and will gladly receive everything of a salable nature, from groceries to live stock; domestic and fancy articles, home-made eatables, candies, potted plants, flower seeds anything that the generous spirit is inclined to donate.

The Entertainment committee is planning for attractive evening programs in the gymnasium.

## URGES VOTERS TO BE CAREFUL HOW THEY VOTE

A large and enthusiastic audience greeted Rev. A. H. Zechiel who addressed the citizens of Jeffersonville Monday evening, on the temperance question. The Washington High School Glee club furnished a number of selections which were heartily applauded.

The keynote of Rev. Zechiel's address was the urging of voters to study the ballot so that they would not vote differently from what they desire.

"Vote right and vote correctly" urged the speaker. "The fight will be won with ease if every person becomes awake to the grave dangers embodied in the proposal of the liquor interests, and will vote as he desires. Vote 'no' on the 'Home Rule' amendment, and 'yes' on the prohibition amendment; if you fail to vote against the liquor amendment and simply vote for the prohibition amendment, yours is only a half vote for prohibition."

Mr. Zechiel expressed himself as greatly pleased with the outlook, and said that it is his belief that Fayette county will cast a vote overwhelmingly in favor of the prohibition amendment.

Tuesday he addressed gatherings at Culpepper, Bloomington, Waterloo, New Holland, in this city, and winds the day up with a meeting at Good Hope.

He has proven himself an able speaker and has worked unceasingly while in this county. He will continue his work here until Thursday.

## DESCRIPTION OF MISSING WOMAN

The following notice, regarding Elizabeth Rader, of Waverly, who was last heard from in this city, has been received here, and has also been forwarded to every point throughout this part of Ohio.

On September 25th, 1914, Elizabeth Rader of Waverly, Ohio, left her home to visit relatives at South Solon, Ohio. She was last heard of at Washington C. H., Ohio, on the same day. She is past 16 years of age, about five feet in height, weight about 136 pounds, short, stockily built, light complexion and blue eyes, full face and large hands. When last seen she was wearing a blue sweater, had on a light blue gingham dress and carried a suit case. Also was wearing a straw summer hat. I have been authorized to say that a reward of \$50.00 will be paid by H. Rader, the father of the girl, for information leading to her apprehension.

JOHN YAHRAUS,  
Marshall, Waverly, Ohio.  
Any one knowing of the whereabouts of the young woman is requested to communicate with the local police.

## OUT OF FRYING PAN AND INTO THE FIRE

Estel Stookey, the young man who was bound over to court by Mayor Coffey, for stealing a bracelet, was turned over to Probate Judge Allen, who dismissed the charge against him, and fined him \$100 and the costs and gave him 60 days in the workhouse on a statutory charge. Stookey promised to pay \$50 and obtain his release. "I'd rather see you go to the works instead of paying the fifty", said Judge Allen in speaking to Stookey.

Bessie Jacks, from whom the bracelet was taken faced a charge similar to that lodged against Stookey, and was fined a like amount and given 60 days in the works. She will pay by Wednesday or go to the works.

## ALLEGED HOLD-UP MAN IS NABBED IN DESERTED HOUSE

Greenfield Man Who is Charged With Daring Crime, is Run to Earth After Taking Refuge in Old House, and Today was Returned to Bainbridge to Face Charges—Claims He Can Prove Alibi.

Surrounded in a deserted house near Greenfield, and realizing that he had no chance to escape, Ray Patton, the Greenfield man who was wanted for shooting with intent to kill Frank Armstrong, and relieving Armstrong of \$210, was arrested late Monday evening by Sheriff Carry Long, of Highland county; Mayor J. E. Durant and Marshal Geo. Willis, of Greenfield, and Robert Bryan and George Reed, two men who had been deputized to assist in taking the man.

Patton, who is well known to the Greenfield authorities, is the man whom it was claimed was on his way to this city, and whom the police Monday afternoon were urged to apprehend.

When Patton discovered that he was wanted, he immediately sought safety in flight, but was tracked down and arrested in the deserted house not far from Greenfield.

Patton was then taken to Greenfield and placed in the lockup to remain until the marshal of Bainbridge could arrive and get him which he did Tuesday morning, taking him back to Bainbridge to face the charge lodged against him.

Patton is accused of holding up Armstrong while the latter was on the D. T. & I. near Thrifton, slightly wounding him, and relieving him of some \$210 in currency and checks.

Armstrong tore the fellow's mask from his face and claims to have recognized Patton.

Patton denies his guilt, and claims he will be able to prove an alibi. He claims that he will be able to prove that at the time the hold-up occurred that Dr. Glenn was at his home, and saw him there.

The affair has created quite a little sensation in Greenfield and Bainbridge.

## HERALD WILL GIVE RETURNS OF ELECTION

Always anxious to give the news to the public at all times, regardless of expense, The Herald has completed arrangements to entertain the crowds on election night, November 3rd, by giving full returns which will be received by a special telegraph wire in this office and thrown upon a huge screen opposite the Herald office on Court street.

No trouble will be spared to obtain the returns both in the city, county and state, and throw them on the screen where all may see them.

The public is cordially invited to be The Herald's guests and obtain the election returns at the earliest possible moment.

## FUNERAL SERVICES LARGELY ATTENDED

The funeral services of David Earl Robison held at Grace M. E. church Monday morning was a remarkable testimonial of the high regard and affection in which this young man had been held.

Many joined the family at the residence on the Jeffersonville pike and drove in the sad procession to this city. Others joined them at the church, the entire county being represented and especially the Jeffersonville and Washington C. H. neighborhoods, in the immense gathering.

Rev. F. E. Ross conducted an impressive service, assisted by Rev. Doty, of the M. P. church, of Jeffersonville, and a double quartet of Grace church choir furnished the music.

## THE SENIOR CLASS ELECTION

At a meeting of the Senior class of Washington High school Monday night to organize, a few of the nominations for class officers were as follows: President, Carrie Willis, Robert Johnson, Anna Lee Shobe, Lois Lampe, Paul Craig. Vice president, Clyde Davis, Harold Hays, Bessie Casey, Margaret Johnson, William Evans. Secretary, Robert Merriweather, Helen Bishop, Emerson Chapman, Florence King. Treasurer, Fred Pine, Jeanette Weaver, Jean Fitzgerald, Roscoe Duff, Elizabeth Snider. A majority, or twenty-three are required for an election, and as no candidate received that number, no election was declared. However, Carrie Willis, Clyde Davis, Robert Merriweather and Fred Pine seem to be leading. One ballot each day will be cast until the required number to elect is received.

The candidates for prophet, lawyer, historian, etc., will be chosen later in the year.

## GREAT HALLOWE'EN PARADE UNDER AUSPICES OF Y.M.C.A.

**Biggest Event of Its Kind Ever Held in City is Now Being Planned by Committee and Everyone Will be Invited to Take Part in Parade and Carnival—Much Interest Aroused.**

It is now time for the lover of fun to be that person man, woman, girl or boy—to unearth or obtain costumes for the Halloween stunts which will be very much in evidence on the eve of things mysterious.

The Social committee of the Y. M. C. A., which has made such unbounded successes of Halloween frolics in this city the past two years, has planned the event on an even broader scale this year, and one of the prime features of the big affair is to be a public parade in which between 1,000 and 2,000 persons will participate. Citizens from this town, other towns, and in fact every nook in the

county, are invited to take part, and the greatest array of grotesque beings ever seen in the city is anticipated, providing the Weather Man smiles upon the event.

Mr. Robert McLean is chairman of the committee, and he will be ably assisted by a large number of persons who enjoy such events.

Plans are developing thick and fast, and will be announced later. However, one of the plans at present includes the holding of the entire affair out of doors, and in all probability the beautiful field south of Paint creek, on South Main street, will be utilized for a Halloween carnival, to follow the big parade.

The announcement of the carnival and jolly good time generally, will be heralded by everyone, and preparations will start immediately so that costumes will be in readiness for the greatest of all masquerades ever held in the city.

### A HISTORIC TRIANGLE.

**Famous Battlefields of the Plains of Hesbaye, in Belgium.**

Describing the road from Brussels to Liege, which skirts the plains of Hesbaye, Baedeker quotes the old proverb, "Qui passe dans le Hesbaye est combattu lendemain"—"He who enters the Hesbaye is defeated the next day." Such was the reputation of the Hesbaye for strength and bravery.

The ancient province of Hesbaye is indicated on the maps as a triangle, some fifty miles from its base to its apex. Liege. The river Meuse, from Namur to Liege, forms its southern side; the railways from Liege through Tirlemont and Louvain to Brussels its northern side. A line from Namur north to Brussels is its base.

This triangle contains many famous battlefields. Besides Waterloo, there is Neerwinden, where Marshal Luxembourg defeated the allies under William II, of England in 1693 and where a century later the Austrians, under the Prince of Coburg, uncle of the late King Leopold of Belgium, defeated the French, led by Dumouriez and Louis Philippe.

Then there is Quatre Bras, where Ney's division fought part of the British army and its German and Belgian allies in 1815. There had been a battle the day before at Sombrefe, and on that June night the Prussians accomplished their unparalleled retreat from Ligny. Fleurus, near by, won fame in 1622 and 1690 and again in 1794.—Newark News.

### He Got the Cheapest.

Old Hiram Pincheon was a born trader and a penny pincher besides. He was never willing to pay the price of anything he wanted, and all the shopkeepers at the village dreaded to see him enter their stores.

One day he did a little trading at Nelson's shoe store. He tried on a dozen pairs of boots, but could find nothing that was not too expensive. Then he guessed he would get a pair of rubbers. He rejected a pair that cost a dollar and another that cost 65 cents. Finally the clerk brought him a pair for 50 cents. They seemed to fit well enough, but Hiram was still dissatisfied.

"Hain't ye got any rubbers that are cheaper?" he asked.

"No, sir," declared the irritated clerk, "we haven't. That pair you've got on is the cheapest, poorest, most no account rubber there is made!"

So Hiram bought them.—Youth's Companion.

## In Social Circles

Cards announcing the marriage of Miss Mabel Graham and Mr. Silas Opdyke Hale, at the home of the bride in Xenia, Monday, were received by friends in this city Tuesday morning.

Miss Graham held the position of teacher of English and Algebra in the local High school for the past three years, filling it with marked ability. She is a charming young woman, who made many friends during her short residence here. Mr. Hale is deputy auditor of Greene county.

The cards announce that Mr. and Mrs. Hale will be at home after November 23rd, at 111 North White-more street.

The first of the second series of Kensingtons, with which Mrs. Os Briggs, assisted by her daughter, Miss Mabel, are entertaining, passed off

as successfully on Monday afternoon as did the thoroughly pleasurable trio of last week.

October sunshine had succeeded the gloom of last week and poured its brightness upon a profusion of fall flowers, effectively arranged.

The guests found the affair one of the utmost hospitality, and lingered late in the afternoon.

Mrs. D. H. Van Winkle entertained the Monday Bridge club with the first luncheon of the winter season.

It was an affair of beautiful appointments, with pink and white cosmos, the center decoration of the small tables, and cunning kewpie place cards.

The new "Taylor" system of progression was introduced with the decided approval of club members.

Mrs. W. W. Westerfield, of New Orleans, and Mrs. Clifford Potter, of Chicago, were out of town guests.

Mrs. Hutchison—Eighty-One Years Old—Uses No Other Tonic but Vinol and Recommends It to Friends.

Greenville, S. C. — "It is with pleasure I tell others of the great benefit I have derived from Vinol, for the past several years. I am 81 years old and I find Vinol gives me strength, a healthy appetite and overcomes nervous disorders. Vinol is the only tonic reconstructor I have used for several years. I have recommended it to a great many of my friends and it has always proved satisfactory." — Mrs. M. A. HUTCHISON, Greenville, S. C.

Such cases as the above are constantly coming to our attention. If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

It is the tissue building, curative elements of the cod's livers, aided by the blood making strengthening properties of tonic iron contained in Vinol, that makes it so successful in building up strength for old people, delicate children and for all run-down conditions. Vinol is also a most successful remedy for chronic coughs, colds and bronchitis. If it fails to benefit any one who tries it we return your money.

ENTRAINING  
MANY TROOPS  
NEAR TORREON

Villa Prepared to Fight at a Moment's Notice.

El Paso, Tex., Oct. 20.—Orders posted by General Villa's agents in Juarez threatening with death all persons "who give information to the enemy," were supplemented by the posting of new orders of the following sensational character:

"We have good reason to believe that many detectives and United States secret service men are coming to Juarez and taking notes of our southern military movements. Should they be caught, they will be forced to face a firing squad without the formalities of a military trial, regardless of nationality."

Every indication points to further strained relations between Villa and Carranza. News from the south is to the effect that General Villa has everything in readiness for fighting at a moment's notice. According to passengers arriving here, troop trains with troops of General Robles and General Raoul Madero's brigades on board line the railroad sidings from a point near Aguascalientes to stations well north of Torreon.

SEE NEW MOVE  
BY THE GERMANS

Russians Anticipate Attack on Warsaw and Ivangorod.

WOULD CHALLENGE ADVANCE

Five Hundred Thousand Fresh Troops Being Rushed to the Battle Line in Russian Poland—German General Von Hindenburg to Try Again to Cross the Vistula—Russians Showing More Strength in Galicia.

Petrograd, Oct. 20.—The general staff is rapidly reinforcing the armies in Poland in anticipation of a new movement by the Germans to reach the river Vistula and bombard Warsaw and Ivangorod. Troop trains have been moving westward for several days and there is the belief here that Russia is sending at least 500,000 fresh troops to the battle front.

Reports tend to show that Russia is preparing for another general advance. Dispatches from Warsaw say that the Germans are not expected to

repeat their former progress toward Warsaw. Two reasons are given. The first is that continuous rains make it difficult for the Germans to support their infantry with artillery. The district over which their troops spread is flat and marshy. It is not doubted, however, that General Von Hindenburg, whose ability and energy are recognized, will try again to cross the Vistula in spite of most difficult weather conditions. For this anticipated move the Russians are preparing, with nature fighting on their side.

The German army invading Poland from the northwest is now near Mlawka, and has masked the fortress of Novo Georgievsk. But the Russians have intercepted its advance in the region of Plotsk. A second German force operating from the line of Thorn and Posen is following the left basin of the Vistula in the Kutno-Lowicz district. The German army from Silesia has had no success in its approach to Ivangorod.

The Russians are showing more strength in Galicia, although it is admitted that their Hungarian campaign was unsuccessful, cholera having compelled the abandonment of the north-eastern counties and the surrender of several passes in the Carpathians. But at Przemyśl the Russians are still in strong force.

CANADA TO RAISE  
HUNDRED THOUSAND

Ottawa, Oct. 20.—Orders went out from militia headquarters to the various district centers to proceed at once with recruiting for the new Canadian expeditionary force. Within a year or less it is expected to have 100,000 men under arms. Drafts will be sent to England from time to time as requested by the war office, probably in units of about 10,000 each. About 20,000 men are to be mobilized at once.

RUSSIANS  
MAKE GAINS

Petrograd, Oct. 20.—Several forts at Przemyśl have been captured, it is reported, and the general staff declares Russian arms have been partially successful in the region of Warsaw and south of Przemyśl.

Buffalo, Oct. 20.—Jeremiah Donovan, a member of the detective bureau, is dead.

WILLARD  
QUIZZED

Washington, Oct. 20.—The interstate commerce commission began consideration of the reopened advanced rate case. The proceedings of the first session indicated clearly that the commission intends to confine the hearings to conditions that have arisen since the closing of the record in the original case on May 30 last.

Daniel Willard, president of the Baltimore and Ohio railroad, was questioned in a way that indicated a desire by the commission to find out if the purpose of the application was to transfer the burden brought about by the European war from the shareholders to the shippers. The question was asked if it was not an attempt on the part of the railroads to levy a war tax on the public. President Willard emphatically denied both propositions and contended that present conditions amply justified the increase.

HILL'S OFFICERS  
PROTEST U. S. ACT

Naco, Ariz., Oct. 20.—Mexicans recruited on the American side of the international line crossed from Arizona into Mexico, between here and Agua Prieta, and fired on Agua Prieta, according to claims of the Carranza officials. Major Acedo, commander of the Agua Prieta garrison, sent men out after them, but they escaped. General Hill, reinforced by artillery, is fortifying Naco against the attacks of Governor Maytorena's Yaqui Indians, and believes he will now be able to hold the place against all comers. Only forty-six wounded Mexicans now remain here. The United States officials compelled the less seriously wounded to cross the line into Mexico. Hill's officers have protested against this action.

BLUE JACKETS  
LAND IN HAITI

Washington, Oct. 20.—The landing of American bluejackets at Cape Haitien, Haiti, was reported to the navy department by Commander Twining of the gunboat Tacoma. Commander Twining gave no details of his action, merely stating that he had landed men for the purpose of protecting American interests. From other quarters it was reported that the occasion of this action was the capture of Cape Haitien by the Haitien revolutionists. The revolutionary government set up by General Zamor and recognized by the United States has been unable to maintain peace.

FRANK VOGEL

New York, Oct. 20.—Frank E. Vogel, business associate of Henry Siegel in the ill-fated Siegel enterprises, and who was soon to have come to trial on indictments growing out of his business methods, died suddenly at the Hotel Biltmore. His private physician and Coroner Hellenstein said that death was due to heart failure. Mr. Vogel, Mrs. Vogel and their two children arrived at the Biltmore from Briar Cliff manor. The family was to remain at the hotel until after the trial of the husband and father, which was to begin at Genesee, N. Y., on Nov. 9.

LAW OF GRAVITY VIOLATED.

Conditions Under Which Water Actually Flows Upward.

There are conditions under which water actually flows upward and rises above its source. If a glass tube be dipped into water the column inside will be above the level of the surrounding surface. Moreover, if a tube of half the diameter be substituted the column doubles its height. The water creeps along the inside of the tube, owing to the adhesion, and forms a cup shaped depression at the top.

An explanation is not difficult. It can be proved mathematically that if the diameter of a circle be diminished one-half the circumference is also reduced to that extent, while the area is one-fourth of its former value. The circumference of the column of water being reduced one-half, its contact with the glass, and hence the adhesive force, is also diminished to that extent, while the cross section, and hence the weight, is decreased to a fourth of what it was before. Therefore the second column can be twice the height of the first without exceeding the lifting power.

Remarkable as the underlying principles of this phenomenon undoubtedly

Mrs. Perkins Finds Swift Relief After First Dose of Mayr Remedy.

Mrs. W. E. Perkins of Point Place, R. R. No. 7, Toledo, suffered for a long time from stomach troubles. She felt bad most of the time and she could hardly ever find anything to eat that would agree with her.

She took Mayr's Wonderful Stomach Remedy and was surprised at the sudden restoration that followed. She wrote:

"I have been taking your remedy and it has done me so much good and I am so much better that I am eating most any and everything that I used to years ago before I knew what stomach trouble was. I am thankful that I heard of your wonderful medicine."

Similar letters have been written by thousands of people in all parts of

the United States. Mayr's Wonderful Stomach Remedy is known everywhere. The first dose proves—no long treatment.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucus accretions and removes poisonous matter. It brings quick relief to sufferers from stomach, liver and bowel troubles. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold by leading druggists everywhere.

Russian Ambassador at Constantinople Removes Embassy Archives to Odessa—Rumania and Possibly Italy May Also Be Drawn Into the Great Conflict—Sultan's Attitude One of Defiance.

Rome, Oct. 20.—The explosion in the east which will precipitate Rumania and Turkey into the war is expected within the present week. Official steps taken by the governments of Germany and Turkey on the one hand and the governments of Russia, Rumania and Great Britain on the other, point unmistakably to the entrance of at least to more nations into the conflict, with Italy probably ready to abandon her attitude of neutrality. The most significant news was that the Russian ambassador at Constantinople has removed the embassy archives from Constantinople to Odessa, but probably the most definite indication of the breaking point was Rumania's action in seizing and holding, despite the protests of the German envoy, a trainload of artillery and ammunition passing through Rumania on the way from Germany to Turkey.

Further governmental acts which show how near the time is for Turkey to ally herself with Germany and Austria were Turkey's demand that the head of the Greek church in Constantinople leave the country; the movements of the Turkish fleet, cleared for action in the Black sea, and Turkey's disregard of the British request that the German cruisers Goeben and Breslau be sent home.

The ports has declined to discharge the German crews of the cruisers Goeben and Breslau, which have been in Turkish waters since early in the hostilities, and which are said to have been sold by Germany to the Turkish government. This reply was given in answer to the British representations regarding the continued presence of Germans on board those two vessels.

The Greek Orthodox church is the dominant form of Christianity throughout the Russian empire, in the kingdom of Greece, in European Turkey, among both Slavs and Greeks in Roumania, Bulgaria, Serbia and Montenegro. The highest officers of the church are the four patriarchs of Constantinople, Alexandria, Antioch and Jerusalem, but the most important of these rulers is the patriarch of Constantinople, Germanos V., known also as the ecumenical patriarch.

**PARIS AND BERLIN.**

Chains of Forts That Guard the French and German Capitals.

As a visitor or resident in the country around Paris and Berlin I have often come across deserted bits of wood, hill-tops grown thick with bramble and weed interlacing uncultivated trees. Sometimes I have spied curious mounds and apparently neglected masonry. Mistaking them for some forgotten ruin, once or twice, on going closer, men clothed as country policemen have firmly led me away and inquired pointedly upon some of the hidden fortresses planted there to protect the cities in just such occasion as has this year arisen. Had I been so discovered about this Aug. 1 in either Paris or Berlin I would doubtless have been put through the third degree by the solemn officials, as have been thousands of other Americans who happened to be rushing away to get out of the war zone.

At the present moment these huge networks of forts about Paris and Berlin are manned with thousands of troops, hidden underground along with the big guns or in flanking bombproof intrenchments. At the present writing, while Paris and Berlin stand out as the supposed objectives of respective contending armies, expert opinion is divided as to the strategic value of either city. Both are encircled by fortifications constructed at great expense. The last re-fortification wave began fifteen years ago. But so strongly is each fortified that the job of taking Berlin by the Russians or of Paris by the Germans may not be worth while.—Walter S. Hiatt in Leslie's.

**MRS. FLORENCE CARMAN**

On Trial For Her Life Before New York Court.

**FLORENCE CARMAN IN COURT**

Jury Quickly Secured and Murder Trial Proceeds.

Mineola, L. I., Oct. 20. — Mrs. Florence Carman, who is on trial in the supreme court here for her life is unruffled and cheery about the whole proceedings. This attitude was maintained with unbrokenness while attorneys in the case fought and wrangled and at last agreed on twelve men for the jury.

When the district attorney spoke of the electric chair Mrs. Carman smiled; when mention was made of the fact that a woman had been murdered in cold blood and that the people of the state of New York demand justice, she sat motionless and collected; even when the placing of a dictaphone—"a mechanical apparatus for eavesdropping"—as her attorney called it, in her husband's office was brought up, she sat silently in her chair, the muscles of her face perfectly relaxed and the expression of her eyes as bland and mild as if almost anything in the world were going on except the selection of twelve men to decide her guilt or innocence.

The questions put to the talesmen were categorical and of very limited range. A jury was quickly secured. Mrs. Carman is charged with the murder of Mrs. Louise Bailey, who was shot to death in Doctor Carman's office.

## THE KOEHNE LECTURES

Of Dr. Koehne who begins his celebrated series of lectures on "Jesus, the Christ of God", Wednesday evening at the Presbyterian church, Rev. J. G. Klene, D. D., of Ft. Collins, Colorado, who heard him last winter, writes, "he has lost none of his fire, his power of invective, his art of portrayal, his wealth of illustration, his eloquence, his logic, his wit, his illuminating flashes of a single remark, or the cumulative force of his argument. "Dr. Koehne is, as he has been for the last 20 years the world's greatest and most eloquent lecturer on "Christian Evidences". There is no admission to these lectures. Preparatory prayer meeting this evening at the M. E. church led by Rev. Bowman Hostetler.

## FOURTH HIGHLY PRAISED

Regiment of Which Company M is Part, Complimented by Army Officer Who Inspected Regiment and Was With It in Camp at Maple Grove Few Weeks Ago.

A dispatch from Columbus gives the following account of the praise bestowed upon the Fourth regiment of which Company M of this city, is a part, by Captain Gordon, who inspected regiment while it was out on annual camp at Maple Grove a few weeks ago:

"That the Fourth regiment, O. N. G., of which Colonel Byron L. Bargar of Columbus, is the commanding officer, would make a highclass fighting machine, is plainly indicated by the report of Captain Charles M. Gordon, Jr., U. S. A., who inspected the regiment at its annual encampment in August at the order of the war department. Adjutant General Wood, Friday, received a copy of this report from the war department. The following complimentary comment on Colonel Bargar, his officers and men is made by Captain Gordon in his official report:

#### An Able Officer.

"Colonel Byron L. Bargar, commanding regiment, is the most able and best instructed militia colonel of my acquaintance and a close observer so much so that an inspector-instructor does not need to call attention to defects except as to drill. Under him the duties of line and staff are performed so thoroughly, so accurately and so quickly, and the officers of all grades perform their functions with such enthusiasm and knowledge, and without noise or bluster, that the task of selecting those of superior or inferior intelligence was an impossibility in the allotted period. Lieutenant Colonel Benson W. Hough is also a very superior officer of his grade. In administration and discipline this regiment ranks unusually high."

#### Some More Praise.

"There were 48 officers and 596 enlisted men in camp. There were but two officers and 41 enlisted men absent. Captain Gordon, in commenting upon drill and instruction, said that the company extended order was good; that the combat was very good; that the battalion combat was very good; that the maneuvers were well executed; that the marches and camping were excellent; that the ceremonies were very good; that the discipline was excellent; that the arms, uniforms and equipment were satisfactory, and that the sanitation and messing were satisfactory."

"The inspection passed by the Fourth regiment is one of the best passed by any regiment in the history of the Ohio National Guard."

## PARENTS LOSE WEEK OLD SON

Many relatives and friends are sympathizing with Mr. and Mrs. Harry Hyer, in the loss of their week-old baby boy. The child died Tuesday morning at the residence on Clinton avenue.

Dogs do not perspire. In hot weather they regulate the temperature of their blood by breathing more quickly, which produces a rapid evaporation of water from the surface of the lungs. That is the reason why a dog pants in hot weather.

#### Deep Doings.

"What's ailing Mr. Trout?"  
"He suffers from sunstroke."  
"Go on! Whoever heard of a fish with a sunstroke?"  
"Well, you see, it was a sunfish that jumped into him."—Spokane Spokesman-Review.

## SALARIES OF SINGERS.

Present Day Stars Would Laugh at These Old Time Payments.

In the good old days of 200 years ago or so singers and actors gave the world their greatest efforts for what was undoubtedly considered excellent remuneration, but what in these enlightened times of high priced voices and talents would seem to be pitifully small. And who shall say the performers of the past were not fully as capable as the pampered darlings of the present?

The highest salary paid went to Chasse, who received 3,000 livres, or \$600, a year as her fixed salary, 1,000 livres extra for perquisites, 1,200 livres for Easter and 200 for bread, wine and boots, in those days an extraordinary allowance.

Mlle. Anelot, the first soprano of her day, was a close second, with 4,800 francs, or nearly \$1,000, a year. Today a prima donna receives more than that for a single evening. In a year "La Camargo," the most beautiful woman of her day, received in francs what many of the lesser singers of today receive in a week in dollars—2,700 francs.

Louis XIV. had the reputation of being a most generous manager and dramatic agent, since he granted 200 livres (about \$40) for the first ten performances and about 100 livres for the following. The deviser of the ballet received 120 livres for the first six performances and sixty for later ones.—Argonaut.

## RING OF THE FISHERMAN.

Used by the Popes to Seal Documents of the Holy See.

The ring of the fisherman used by the pope exclusively to seal documents of the holy see shows an engraved figure of St. Peter, the first bishop of Rome, standing in a boat and flinging with two hands a net into the sea.

In 1809, when the French occupied the city of Rome, Pius VII., then pope, was ordered by General Radet to surrender the fisherman's ring. The pontiff refused. He feared that by means of the sanction of the ring the French government would be enabled to issue dangerous documents.

When finally forced to surrender it the pope altered the engraving or stamp with the view of making it useless to his enemies. This seal thus defaced was forwarded to Paris by the French general in command at Rome. Pius VII. in the absence of the fisherman's ring, made use of an iron seal engraved with the figures of Sts. Peter and Paul and inscribed with the words, "Pro Annulo Piscatoris" (in lieu of the fisherman's ring).

The fisherman's ring was kept in Paris until Napoleon I. was overthrown, when it was returned to the sovereign pontiff. The ring is used only to seal briefs. The bulls, more important documents, are stamped with the leaden seal of the ancient parchments.—Indianapolis News.

## BEAT THE HOUSE OF LORDS.

Olden Time Ladies Who Took the Galleries by Storm.

The English house of lords has never been particularly kind to its fair visitors. Long ago, in the days when duchesses sold their kisses for votes, the house of lords forbade them to enter, and a battle royal ensued between the ladies and the peers.

The lord chancellor had sworn that he would not let them in, and the Duchess of Queensberry had sworn that ladies should come in. "This being reported," we read in an old diary, "the peers resolved to starve them out. An order was made that the doors should not be opened till they had raised their siege."

These amazons now showed themselves qualified for the duty even of foot soldiers. They stood there till 5 in the afternoon without either sustenance or intermission, every now and then playing volleys of thumps, kicks and raps against the door with so much violence that the speakers in the house were scarcely heard.

At last by strategy worthy of a general the ladies "all rushed in and placed themselves in the front row of the gallery," where they remained till an hour before midnight, applauding or hissing to their hearts' content.—London Saturday Review.

#### Clearing For Action.

When a warship is cleared for action not only is everything movable on the decks removed or made secure, but every article made of wood is, as far as practicable, thrown overboard. Sofas, tables, chairs, pianos, all the furnishings of officers' quarters, in fact, are hurriedly put over the side by the bluejackets, and in a few minutes as much as \$1,000 worth of stuff is floating round the Dreadnought. At the moment that a warship is preparing to

## HOME RULE VERSUS PROHIBITION

(Advertisement.)

The Home Rule Amendment, by retaining local option laws, recognizes 50 prosecutions in a total of 6,158 licenses.

that the municipalities and townships of Ohio shall continue to have the right of deciding broadly whether the sale of alcoholic beverages shall be permitted in their communities, and that they may exercise this right independent of any outside vote. The Home Rule Amendment would thus meet different conditions and different views in the different localities in thorough accord with the local public sentiment, and thus make for law observance and law enforcement.

The Prohibition Amendment, by repealing all local option laws, substitutes a hard and fast rule, and destroys all independent self-government of communities and individuals. The law disorder experienced under the operation of the Rose law would be multiplied enormously with prohibition made state-wide and including all the commercial and industrial centers with their large cosmopolitan population.

The Home Rule Amendment, by retaining license, would regulate the liquor business under a system which automatically revokes licenses on second conviction of licensees. A trial of license should continue. For the first year of operation the State Liquor Licensing Board reported only

The Prohibition Amendment, by repealing the license system, would substitute home stills, since manufacture for use is not forbidden. The Prohibition Amendment would encourage illicit sale and bootlegging by men, women and children as under the Rose law in dry counties. Instead of a pure food product manufactured under lawful conditions as required by national and state pure food laws and also as brought about by keen competition, Ohio would experience, as all prohibition territory has experienced, the sale and use of unhealthful and adulterated alcoholic concoctions and harmful drugs.

The Home Rule Amendment would preserve the enormous tax revenue arising from the legal sale of alcoholic beverages—a tax that is least felt and only paid by the producing, selling and consuming interests to the advantage of the entire state.

The Prohibition Amendment would cause the loss of this tax revenue not only to the state, but also to the national government, at this very time struggling to meet unusual financial conditions caused by European war. The Prohibition Amendment would substitute a condition of affairs where excessive drinking would prevail without any revenue to either the state or nation.
